

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re Patent Application of:

Jonathan EDELSON

Examiner WAKS, JOSEPH

Filed: 28 September, 2000

Group Art Unit 2834

Serial No.: 09/675,082

Title: ELECTRONICALLY
CONTROLLED ENGINE
GENERATOR SETAssistant Commissioner for Patents
U.S. Patent and Trademark Office
Washington, D.C. 20231

31 March 2002

Sir:

RESPONSE TO RESTRICTION REQUIREMENT

In response to the restriction requirement, mailed February 5, 2002, Applicant elects to restrict the above-captioned patent application to the invention of Group I. This corresponds to claims 1-77.

REMARKS1. Restriction

The Office Action required under 35 U.S.C. § 121 that Applicant restrict this application to one of the following groups of claims:

Group I: "Claims 1-77, drawn to control in response to generator and prime mover conditions;"

Group II: "Claims 78-104 and 222 drawn to turbogenerators;"

Group III: "Claims 105-221 drawn to engine control in response to generator line conditions;"

Applicant hereby elects to restrict this application to the invention of Group I, claims 1-77.

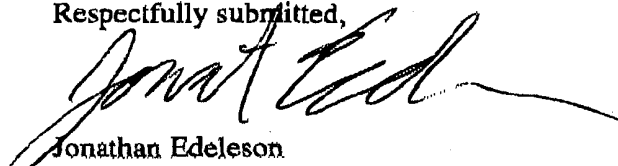

Please cancel claims 78 -221 without traverse.

CONCLUSION

Applicant submits that this application, as amended, is in condition for allowance, and such disposition is earnestly solicited. If the Examiner believes that the prosecution might be advanced by discussing the application with Applicant, I would welcome the opportunity to do so.

Respectfully submitted,

Jonathan Edeleson
Inventor
